

WASHINGTON PLACE UPDATE

September 7, 2018

Project Update

A foundation permit was issued yesterday by the City of Newton for the Washington Place project. This will allow construction to commence this month as originally scheduled. Erland and their subcontractors will begin mobilizing in the upcoming weeks.

Building demolition is substantially complete throughout the main portion of the site. The property has been cleared and sorted in preparation for sitework to begin. Additional details will be provided on a regular basis as the project ramps up.

We're looking forward to breaking ground on this exciting project in the very near future.
