WASHINGTON PLACE UPDATE

September 17, 2018

Project Update

Erland Construction is in the process of setting up the Washington Place site for their work to begin. New fencing, traffic barriers, signage, erosion control, and field office facilities will be installed in and around the work zone this week in preparation for construction. Layout and site cleanup will continue in advance of the excavation start later this month.

In an effort to minimize our impact on parking and traffic during construction, Erland and Mark Newtonville LLC have made a commitment to the City of Newton and the neighborhood to direct all personnel to park on site or at a remote lot. We will enforce this policy throughout the entire project.

Stay tuned for important updates over the upcoming months. We will share rental information as soon as it becomes available along with other exciting announcements.

If you have any questions in the meantime, please contact:
